

SiselSafe® CBD

MUSCLE & JOINT

650 MG CBD

FULL SPECTRUM
WARMING CBD LOTION

PRODUCT INFORMATION GUIDE

OUR BODIES WERE DESIGNED TO INTERACT WITH CANNABINIDS.

SiselSafe® CBD Full Spectrum Warming Lotion:

- Soothes sore joints and muscles
- Provides fast-acting, deep-penetrating heat
- Helps with post-workout recovery

WHY SISELSAFE® CBD FULL SPECTRUM WARMING LOTION MUSCLE & JOINT?

The Endocannabinoid System includes cell receptor sites CB1 and CB2 found in the skin, gastrointestinal, reproductive, immune, central, and peripheral nervous systems. Cannabinoids are neurotransmitters produced in the body that bind to these receptor sites. Cannabidiol is one of many cannabinoids found in SiselSafe CBD Full Spectrum Warming Lotion that can influence these receptors to promote an array of potentially positive results.

Hundreds of studies on this potent plant extract validate its traditional use. More and more people are being educated on the benefits of maintaining healthy cannabinoid levels and what that can mean for overall lifestyle.

The hemp used in SiselSafe® CBD Full Spectrum Warming Lotion is grown organically with no pesticides, herbicides, or chemical fertilizers, and may help calm the mind and optimize the body.

Soothe Sore Joints and Muscles

SiselSafe® CBD Full Spectrum Warming Lotion's dual-action warming agents and CBD work together to ease tension and loosen stiffness before, during, and after activity. Apply it to your neck, shoulders, back, hands, or anywhere that you may have physically-induced or stress-related muscle tension and soreness.

Provides Fast-acting, Deep-penetrating Heat

Warming agents Vanillyl Butyl Ether (VBE) and Wintergreen Oil provide a heating sensation in two distinct ways. VBE stimulates the receptors at the nerve endings to produce a feeling of warmth without an actual temperature change. It goes to work immediately—warmth can be felt within five minutes and lasts up to two hours. Wintergreen Oil counteracts underlying discomfort, causes dilation of the capillaries to increase blood circulation, and has a pleasant fragrance.

Helps with Post-workout Recovery

Rub SiselSafe® CBD Full Spectrum Warming Lotion deep into muscles and on joints 10–30 minutes before activity to warm up, help your muscles relax, and make your workout more enjoyable. After your workout or any prolonged or intense stress or strain, this soothing lotion works great in therapeutic massage for deep stress relief.

Companion Product:

Use in conjunction with SiselSafe® CBD Full Spectrum Hemp Extract to maximize the tension and stress relief benefits.

THE BODY'S ENDOCANNABINOID SYSTEM

FEATURES:

- Made with full spectrum hemp extract, including many other cannabinoids, terpenes, vitamins, fatty acids, minerals, and compounds from the whole plant, thus creating a synergistic entourage effect for maximum results
- Contains rich, moisturizing emollients for soft, smooth skin
- Natural, non-GMO, and grown organically with no pesticides, herbicides, or chemical fertilizers by American farmers
- May ease tension and loosen stiffness before, during, and after activity
- Non-psychoactive formula containing 0.3% or less THC
- Tested by multiple labs to ensure safety and potency
- Made in the USA in a GMP Certified and FDA registered facility

SUGGESTED USE:

Apply to affected area and massage into skin. Repeat as needed.

CAUTION:

For external use only. Avoid contact with eyes. Do not use with a heating pad, apply to wounds, or apply right before bathing as the warming sensation will be enhanced by warm water. If the warming sensation is uncomfortable, discontinue use. If you are pregnant, nursing, taking prescription medication, or have a pre-existing medical condition, consult your healthcare provider before using this product. Keep out of reach of children.
